

# HELIX

## 6-24X50

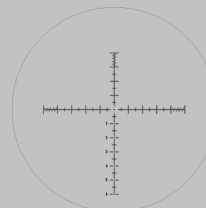

Looking for a riflescope that punches above its weight? We've designed the HELIX in a way that puts the important things first: clear glass, smart reticles, innovative features and a turret system superior to other products in the same price class. Our turret system has been upgraded from your stock-standard sporting optic to feature stainless steel internals for resistance against wear-and-tear when dialing regularly - something that modern shooting disciplines require. The tool-free turrets and zero-stop mechanism give you high end features without breaking the bank, and the 24x reticle calibration allows you to effectively use the reticle at 12x and 6x if you so wish (with some basic math, of course!).

We've introduced quality control checks to give you peace of mind when taking that 1000 yard shot, and if something goes wrong, our Platinum Lifetime Warranty has you covered!

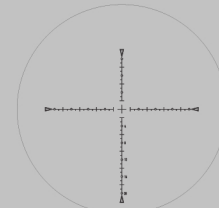

## SPECS

MAGNIFICATION RANGE	6-24x	
TUBE DIAMETER	30mm	
RETICLE POSITION	Second Focal Plane	
OBJECTIVE LENS DIAMETER	50mm	
EYE RELIEF	3.94 - 3.54"	
FIELD OF VIEW	@100yds: 19.1-4.2ft	@100m: 6.4-1.28m
CLICK VALUE	1/4 MOA (15 MOA / REV)	1/10 MRAD (6 MRAD / REV)
ELEVATION ADJUSTMENT RANGE	65 MOA	18.9 MRAD
WINDAGE ADJUSTMENT RANGE	65 MOA	18.9 MRAD
MINIMUM PARALLAX	10 YDS	10 METERS
