

APL™

Now with 400 lumens of vibrant white light, the Gen3 APL provides a high-intensity tight beam to fill your field of view for close to mid-range target identification for up to 1.5 hours. The water-resistant, glass reinforced polymer body is incredibly powerful yet compact in size. Extensively tested, and weighing less than 3 ounces, the APL integrates seamlessly with MIL-STD 1913 and Universal rails and offers constant and momentary operating modes. Textured paddles for a non-slip grip and ambidextrous on/off switches enable left or right hand activation. In addition, the easy-to-operate lockout system ensures the light isn't activated until you're ready.

PART #	BODY COLOR	UPC 671192-
A-05-1	Black	60143-8
A-06-1	Flat Dark Earth	60144-5

**400
LUMENS**

1/4 turn of head engages lockout mode for travel, transport & storage.

Integrated clamp interfaces with MIL-STD-1913 & Universal rails.

Textured paddles for optimal non-slip grip.

Non-slip switch controls constant & momentary functions.

ACTUAL SIZE

FUNCTIONS	Constant / Momentary
MODE	White
OUTPUT	400 Lumens
RUNTIME	High efficiency LED provides up to 1½ hrs
WEIGHT	2.95 oz/83.6 g with battery
SIZE	Length: 3.01 in/7.7 cm Width: 1.16 in/2.9 cm Bezel Diameter: 1.05 in/2.7 cm
MOUNT	Integrated MIL-STD-1913 and Universal rails.
ACTIVATION	Ambidextrous on/off
LOCKOUT SYSTEMS	Head Rotation
CONSTRUCTION	Glass reinforced polymer body offers high-impact resistance and durability.
BATTERY	1 Lithium CR 123a included. Head removes for battery replacement.
