

LCO PRO F2

Built for speed, control, and maximum reliability, the LCO® Pro F2 delivers an incredibly clear image in all conditions and holds zero throughout intense use.

With expanded day and night illumination settings, intuitive controls, and an ultra-rugged machined, aluminum housing designed to take extreme abuse, the LCO Pro F2 gives shooters the confidence and the capability to stay engaged and on target—day or night.

KEY BENEFITS

Fast target acquisition. 1x magnification provides a true-to-life sight picture with unlimited eye relief and a wider field of view for rapid, open-eyes shooting in dynamic situations.

Crisp, highly visible aiming point. Multiple reticle options include a 65 MOA outer ring and a 1 MOA center dot for greater versatility.

Daylight and night vision capabilities. 20 daylight and 10 night vision illumination settings deliver precise control all day and all night.

Ultra-rugged, waterproof housing. One-piece machined US aluminum construction is built to handle recoil, impact, and all atmospheric conditions. Waterproof to 66 feet.

Click windage and elevation adjustments. For fast and accurate zeroing.

Intuitive, illumination controls. A rotary dial allows for intuitive, tactile brightness adjustments.

Motion Sensor Technology (MST™) Helps extend average battery life up to 30,000 hours.

No accidental setting changes. Lockout mode turns off the Motion Sensor Technology and prevents unintentional changes once your preferred settings have been selected.

Rapid Illumination Dial. Instantly cycle through all 20 illumination settings with a quick, half-turn spin in either direction.

Waterproof, fogproof, and guaranteed to perform for life
