MMX4

MEPRO MMX3 & MMX4

3X and 4X Micro Magnifiers

The Mepro MMX3 and MMX4 micro magnifiers are compact, lightweight magnifiers that will extend the effective range of your red dot or reflex sight. Weighing in at 6.1 oz. and 6.9 oz., they reduce the footprint, saving rail space and weight on your firearm.

Elevation and windage dials provide precise FOV line of sight alignment. This enables rapid target acquisition with both eyes open which is critical when time is of the utmost importance.

The Mepro MMX3 and MMX4 micro magnifiers attach to any MIL-STD-1913 rail directly behind your optic. When not in use, the magnifiers can be securely flipped out of the way.

PROVEN ADVANTAGES

- Increases the effective range of red dot sights
- Enables rapid target identification
- Works with both 1.5" and 1.93" height over bore optics (riser supplied)
- No zeroing required
- Integrated side flip adapter with Picatinny adapter
- Two protective rubber covers included (Black and FDE)
- Compatible with aftermarket mounts

SPECS

- Magnification: 3X/4X
- Objective diameter: 18 mm/24 mm
- Exit Pupil: 6 mm
- Length: 2.8"/3.2"
- Center Height: 1.58"
- Center Height with Riser: 1.75"
- Net Weight with mount: 9.47oz/10.23oz
- Eye Relief: 2.65"
- Angular Field of View: 7.2°/5.5°
- Diopter adjustment: +/- 2
- W&E Travel Range: ≥ 60 MOA
- Storage Temperature: -22°F to 140°F (-20°C to +60°C)
- Working Temperature: -4°F to 122°F (-20°C to +50°C)
- Submersion: IPX7
