

# GOBBSTOPPER™

## LIFELIKE DECOY

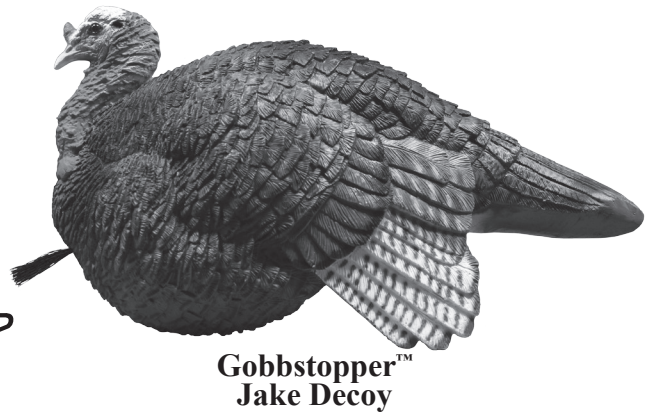

# JAKE

Model No. 69066

### Components of Gobbstopper™ Jake

Includes:

- Gobbstopper Jake Decoy
- Decoy Stake

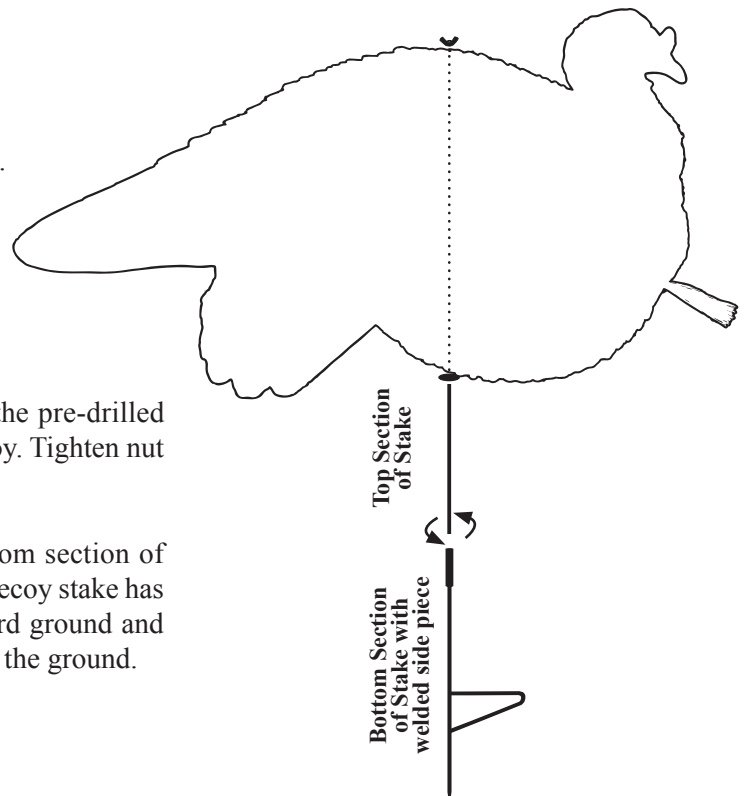

The Gobbstopper™ is designed to be collapsible and can be folded to fit easily in your vest. When left in the collapsed and folded position for long periods of time, the decoy may begin to hold memory to that shape. Original shape and look can be easily restored by following these steps :

- Place Gobbstopper™ under HOT water.
  - Use a hair dryer to warm Gobbstopper™.
  - Place Gobbstopper™ outside on a warm sunny day.
- These methods will pop him back into his original shape.

### Assembly of Gobbstopper™ Jake

**Step 1** - Insert the top section of the decoy stake into the pre-drilled hole in the middle of the back on the Gobbstopper™ Decoy. Tighten nut onto decoy stake.

**Step 2** - Insert top section of decoy stake into the bottom section of decoy stake and twist to lock. The bottom section of the decoy stake has a welded side piece for pushing the decoy stake into hard ground and also serves as a handle for pulling the decoy stake out of the ground.
