

XSC

SUB-COMPACT HANDGUN LIGHT

350 LUMENS

30 MINUTES

90 METERS

REFLECTOR

RECHARGEABLE

DESCRIPTION

The XSC-B is designed and engineered for to mount onto a wide variety of modern pistols. The single-output XSC features a premium LED that delivers 350 lumens of intense white light shaped by a precisely engineered smooth parabolic reflector. Its beam pattern features a bright central spot for positive target identification and generous peripheral light to help maintain situational awareness. The XSC also features a unique rechargeable battery (Model B12) that can be replaced quickly and easily.

The XSC's robust compact body is precision machined of lightweight, strong aerospace aluminum with a durable Type III Mil-Spec hard-anodized finish to withstand the rigors of everyday carry and increase durability in harsh environmental conditions. Measuring less than 2.0 inches long and weighing less than 2.0 ounces, the rechargeable XSC won't weigh down a your pistol. It exerts minimal effect on weapon handling. Five different accessory rail cross members are included which allow to mounting onto a wide variety of pistols (see compatibility chart below).

Switching is as intuitive and simple as other SureFire X-Series WeaponLights; press either side's rear switch for momentary-on or tap either side's switch quickly for constant-on. The XSC will stay in momentary mode for as long as either toggle switch is depressed and held in the on position beyond a fraction of a second. Constant-on deactivation is achieved by quickly touching and releasing either switch.

The XSC's quick-detach, rechargeable lithium polymer battery can be swapped fast without removing the WeaponLight from the host pistol. A useful LED Fuel Gauge on the side of the B12 battery keeps the user informed of battery status. The B12's charge status can be acquired by pressing the push-button switch on top of the battery and taking a quick glance at the Fuel Gauge on the side of the battery. Users can keep spare B12 batteries charged and ready using the included CH21 cradle charger and MICRO-USB cable.

When you pair a SureFire XSC-B with your pistol, you are getting the best in performance and reliability in your EDC/CCW/undercover kit.

FEATURES

- The SureFire XSC-B and your pistol are the perfect pairing, ideal for lightweight and ultra-compact concealed-carry use
- Quick-detach and rechargeable lithium polymer battery can be changed without removing the XSC from the host pistol
- The XSC battery can be recharged from 0-100% capacity in just 3 hours
- Integrated ambidextrous momentary- and constant-on switching facilitates rapid light activation
- Constant-on activated by tapping either one of the momentary switches. To turn off, simply tap either one of the momentary switches again
- Gasket sealed for weatherproof and water resistant reliability; the XSC is IPX4 – rated (resistant to water splashes from any direction)

SPECIFICATIONS

	XSC-B
OUTPUT	350 lumens
RUNTIME	30 minutes
PEAK BEAM INTENSITY	2,000 candela
DISTANCE	90 meters
CONSTRUCTION	Aluminum
FINISH	Hard Anodized (MIL-A-8625 Type III, Class 2)
WEIGHT (w/batteries)	1.7 oz (48.2 g)
LENGTH	1.94 inches (4.9 cm)
BEZEL DIAMETER	0.78 inches (1.9cm)
BATTERIES	One proprietary rechargeable lithium polymer 3.7V battery
SWITCHING	Ambidextrous momentary/constant

All performance claims tested to ANSI/NEMA FL1-2019 Standard.
