Black (FED-STD-595C #37031)

The Team Wendy® Radio Rig is a comfortable, purpose-built communications harness that features a better approach for cable management. It provides hands-free access to two-way radios and GPS, as well as multiple storage areas for other mission critical tools and devices.

MATERIALS

- › Fabric: Nylon
- › Webbing: Nylon, Hypalon (TPR Coated Nylon), Clear PU Film, and Elastic materials
- › Radio/GPS Pouches: Nylon Fabric and Webbing, Hypalon and Elastic materials
- › Weather Resistant Pouch: PU coated Nylon Fabric, Nylon Webbing and Nylon Loop Fastener

FEATURES

- › Assortment of three pouch sizes (small, medium, large) to accommodate any size radio or GPS device.
- › Separate weather resistant accessory pouch to protect a cell phone or other electronics from the elements.
- › PALS webbing on the front provides a modular attachment system for included pouches, as well as other MOLLE / PALS compatible holsters, bags, etc.
- › Front panel features an interior zipper pouch, including two pockets:
 - › One pocket dedicated to cable management with six separate pass-throughs.
 - › Second pocket includes webbing to secure pens, flashlights, multi-tools, etc.
- › Elastic mesh pockets on the top corners of the front panel provide storage for in-ear comms / ear buds when not in use.
- › Fidlock® buckles allow front section to fold forward, providing access to the backside of the front panel which features a clear touch-screen pocket for electronic devices, maps, notes, etc.
- › Low-profile rear panel allows use with backpacks and includes loop to mount ID patches and PALS webbing for securing additional small pouches.
