

DIAMONDBACK™ HD 2000

LASER RANGEFINDER

KEY FEATURES:

▶ HD OPTICAL SYSTEM

Optimized with select glass elements to deliver exceptional resolution that cuts chromatic aberration and provides outstanding color fidelity. It also provides outstanding edge to edge sharpness and light transmission.

▶ RED OLED DISPLAY

Optimized for low-light ranging situations.

▶ RANGES

Reflective: Up to 2000 yds.
Tree: Up to 1800 yds.
Deer: Up to 1400 yds.

WHAT'S IN THE BOX:

- Soft Carry Case
- Wrist Lanyard
- Bungee Cord Lanyard
- Lens Cloth
- Utility Clip
- 2mm Hex Wrench
- Hook & Loop Harness Attachment
- CR2 Battery

TIME FOR A LITTLE LONG-RANGE FREEZER TAG.

When your hunt means ranging big game at 1,000 yards and beyond, your laser rangefinder needs the horsepower to go long and the toughness to stand up to the field. The Diamondback™ HD 2000 laser rangefinder gives hunters 2,000 yards max range, and 1,400 yards on game. 7x magnification helps you see farther, and an HD optical system means you can pick apart the landscape and stay pinpointed on your quarry. The red OLED display stays clear in low light, and to match any hunting environment, the Diamondback™ HD 2000 has two target modes (Normal and Last), two ranging modes (HCD and LOS), and is tripod adaptable.
