Helical Focus Dial

WHAT'S IN THE BOX:

- Neoprene Cover
- Lens Cloth
- Tethered Objective Lens Cap
- Product Manual
- Tethered Ocular Lens Cap

EVOLUTION NEVER LOOKED SO GOOD

Glassing out west demands an HD optic, but other systems can't get you the clarity you need to see a tail twitch in low light, or pick a tine out of dense cover. The redesigned Diamondback[®] HD spotting scopes have all the horsepower the long-distance hunter needs, and they excel in low light—right when you need it most. We've also streamlined the exterior for a sleeker, snag-free profile, building in a helical focus wheel. For the biggest hunt of your year, or your third time out this season, the all-new Diamondback[®] HD spotters deliver the power to focus on the thrill of your hunt.

DIAMONDBACK[®] HD

SKU	MODEL	FIELD OF VIEW (@ 1000 YDS)	WEIGHT	LENGTH	EYE RELIEF (MAX POWER)	BODY TYPE
