

G21M MOUNT

BREAKAWAY NIGHT VISION GOGGLE MOUNT

PRODUCT OVERVIEW

The G21M breakaway mount has become a night vision goggle industry standard. The Wilcox G21M mount was designed specifically for the AN/PVS-21 night vision goggle and offers the innovation of our patented breakaway feature. In addition, the mount has two flip levers that allow the goggle to be uniquely stowed in a high or low stow position. Pioneering the “break away” feature, this mount has built safety into it’s design by disconnecting from the base under stress which reduces the potential for neck injury.

NVG COMPATIBILITY

-AN/PVS-21

SPECIFICATIONS

Dimensions:	2.75" L x 2.30" W x 3.60" H
