ZT 0460TI

A DMITRY SINKEVICH design

The 0460TI is a titanium-handled version of the popular 0460 from ZT and Dmitry Sinkevich.

The blade steel is CPM 20CV with a two-tone finish: stonewashed on the flats and satin on the grinds. The handle is titanium, machined to fit the hand for comfort and control, and stonewashed for a matte look.

A black anodized aluminum backspacer adds a handsome touch. A black Teflon®-coated pocketclip lets you carry this ZT comfortably every day.
